

Md. Sajidur Rahman

✉ mdsajidurrahman375@gmail.com ☎ +8801311314838 💼 Md. Sajidur Rahman Labib

Education

Rajshahi University of Engineering & Technology (RUET), Bangladesh B.Sc. in Electrical & Computer Engineering CGPA: 3.53	Jan 2020 – Jun 2025
Ibn Taimiya School & College, Cumilla, Bangladesh Higher Secondary Certificate (HSC)	2017 – 2019
Ashuganj Tap Bidyut Kendra High School, Brahmanbaria, Bangladesh Secondary School Certificate (SSC)	2017

Skills

- **Communication:** Able to convey technical concepts clearly and effectively in both written and verbal forms.
- **Teamwork:** Cooperative and adaptable when working in group projects or multidisciplinary teams.
- **Problem-Solving:** Skilled at analyzing complex situations and developing logical, practical solutions.
- **Time Management:** Efficient in prioritizing tasks and meeting project deadlines.
- **Adaptability:** Open to learning new tools, technologies, and methodologies quickly.
- **Leadership:** Capable of taking initiative and guiding peers toward achieving collective goals.

Proficiencies

- **Publication:** Authored a book titled "*Golpe Anonde Podarthobiggadh*", a physics guide for students of classes 8–10 that explains fundamental concepts through real-life examples and problem-solving approaches. Available at [rokomari.com](https://www.rokomari.com).
- **Article Publication:** Authored an article titled "*Limits of Coal-Dependent Energy Path*", published in the *New Age* newspaper (April 28, 2026), discussing energy sustainability and policy challenges in Bangladesh.

Project Work

Your Shop (2025) (Web Project)
A full-stack e-commerce app built with the MERN stack featuring JWT authentication, Stripe integration, and modern UI/UX using Tailwind CSS. It includes user-facing pages, admin dashboard, and RESTful APIs.
Team Name : codeclusters
Project Link : Codeclusters
Live Website : YourShop2

Training Experience

Software Internship — Geeky Solution - Learnathon 3.0 Program (Dec 2024 – Apr 2025)
Role: Intern
Team Name : codeclusters
Key Skills Learned: MongoDB, Express.js, React.js, Node.js, JWT Authentication, Stripe Integration, REST APIs, Tailwind CSS
Project: A full-stack e-commerce app built with the MERN stack featuring JWT authentication, Stripe integration, and modern UI/UX using Tailwind CSS. It includes user-facing pages, an admin dashboard, and RESTful API architecture.

Industrial Training — Code Studio, Rajshahi (Apr 2024 – May 2024)
Key Skills : React.js, Tailwind CSS, JavaScript, HTML/CSS, Node.js
Project : Developed a responsive frontend e-commerce system with dynamic cart and product integration.

Additional Attachment : Hands-on experience at APSCL (Ashuganj Power Station Company Limited) with gas/steam turbines and combined cycle systems.

Academic Projects

Salary Management of a Powerplant

(Web Project)

Technologies: PHP, JavaScript, CSS, HTML

Description: Designed a web system for powerplant salary operations with admin control and secure login.

Repository: [Powerplant](#)

Line Follower Robot (PID-Controlled)

(Hardware Project)

Technologies: Embedded C, Arduino, IR Sensors, Motor Driver, PID Control

Description: Developed a real-time PID-based robot for line tracking with precision motor control.

Paste Detection (YOLO-Arduino)

(ML + Embedded)

Technologies: Python, YOLO, Arduino, Serial Communication

Description: Built a real-time object detection system linked with Arduino for hardware control.

Repository: [Paste Detection](#)

Research Paper

- **Conference Paper**, 2025 IEEE 7th International Conference on Sustainable Technologies for Industry 5.0 (STI)
Title: AI-Based Optimal Tuning of PID-Integrated LFC for Improved Frequency Regulation in Smart Grids.
- **Conference Paper**, UCICS Conference, Varendra University, Bangladesh
Title: Comparative Analysis of Different Machine Learning Algorithms for the Prediction of Chronic Kidney Disease (CKD).
- **Undergraduate Thesis (4th Year Final)**
Title: Design and Optimization of PID Controllers for Electric Vehicle Control.

Club Participation

- **General Secretary**, FUSION ECE RUET 2024–2025
Coordinated events, managed team communications and led organizational planning of my departmental club.
- **Volunteer**, IEEE RUET Student Branch 2023–2024
Assisted in organizing workshops and seminars to promote technical learning and manage the website.
- **Team Member (Electrical)**, Team Annexe RUET 2024–2025
Designed and implemented electrical subsystems for go-kart including motor control, battery management and wiring.
